

I Seminar on Practices in Astronomy Education NASE (Observation, Models and Archeology) – America Zone

I Seminario sobre Enseñanza Práctica de la Astronomía - NASE (Observación, Modelos y Arqueología) – Región Americana

IAU Division C Commission C1 WG2
Network for Astronomy School Education NASE

Place: Planetario de Bogotá
Date: October 11, 2016

NASE MEETING OPEN TO PROFESSORS AND TEACHERS

This is an interdisciplinary meeting with participation from astronomers, teachers, professors, planetarium staff and educators. This seminar provides an opportunity to exchange experiences and strategies and open a discuss tribune and will be developed as satellite of LARIM 2016, on October 11st in Bogota (Colombia) with the support of Planetarium of Bogotá and Parque Explora -Planetarium of Medellin.

NASE promote new vocations, but any students will decide to become astronomer if they do not know what is meaning this. It s not possible to choose a degree that it is unknown.
